

WHAT CARSON CAN DO.

A Stranger Believes That it is the Real Health Resort.

M. P. Dalton, a mining man from New York, who has been spending several days in this city, and who has been looking for mining chances in and about this county, has become favorably impressed with this city. During his stay he visited the hot springs and from what he has to say of them, their fame should be scattered somewhat. Mr. Dalton, in speaking of the city said:

"I just came from the East and the change of climate to this city is most enjoyable and surprising. When I left the East the weather was too cold for any sort of enjoyment, while in this city it is simply ideal. Take the present day and there is not a cloud in sight, the sun is absolutely warm, and it seems more like a New England spring than the late fall or almost winter. It is certainly a great land of sunshine and from what I can learn of the weather conditions this is no surprise to you. It seems too real to be true.

"I paid a visit to the hot springs near this city and they are what should make a Colorado Springs of your city. The water is delightful and to the man who comes here only expecting hardships, it is a pleasant surprise. The waters seem to me to be the best that I have ever had the pleasure of bathing in. I don't see why you people do not make the worth of the resort known to the world. It would certainly attract a great many people did they know that there was a splendid hotel and good treatment at a natural hot springs in the Capitol City of Nevada. The general impression of Nevada is that it is the land of sagebrush Indians and mines while on the contrary it is in many places a wonderful section. I am heartily surprised at the many good features that I find here. During my short stay I have become favorably impressed and hope to return again and enjoy the warm baths and the splendid climate that I have encountered. Your people have also treated me royally and made my first visit to Nevada one of pleasure. I am sorry that I have to return to the hard winter of the East instead of putting in my time in this immediate section."

Mr. Dalton's ideas are absolutely correct and the advantage of this city should be sent broadcast as the knowledge of what we have to offer is not known to any extent. Everyone should boost for the advantages that are here and make the town the resort of the State as well as the mining exchange.

Antiinsurance Combine Proxies...

James McCormick informs the Chronicle that over 250 proxies have been sent to Thomas W. Lawson from this city and vicinity. Five hundred additional proxies were telegraphed for today to assist Lawson in his fight against the insurance combine.—Chronicle.

To Sell Exhibit at Auction.

The property of the old Chamber of Commerce of Reno will be sold at public auction by Sheriff Ferrel at the court house November 18 at 10 o'clock. The exhibits consisting mostly of ore together with many other articles of value, will be sold to satisfy a number of claims levied by several creditors of the old organization.

Several parties have evidenced a desire to purchase the ore exhibit and lively bidding is looked for.

New lines of footwear are arriving daily at Ed. Burlington's shoe store. He has been considering a relay in freight cars for arriving daily. You can get the best and best lines of shoes at his store and prices are always the lowest. You can save money by purchasing footwear at his store.

Notice.

Came to my enclosure, one milch cow branded circle P. Owner can have same by paying for this advertisement. S. P. DAVIS.

Bicycle Stolen

A bicycle was stolen from the shooting range a few days ago. The machine is a Falcon and can be readily identified. Anyone bringing evidence of the machine will be rewarded. Call at this office.

Underwear to suit the weather conditions can be found at Joe Platt's.

PUTTING ON THE ROOF.

New School House Building is Nearing Completion.

The contractors on the new school house building are rushing matters along at a rapid rate. During the past week the big building has assumed new form the roof is all in place and the shinglers are at work. The tower is about finished and another crew is busy placing the cornice in position which gives a decided finish to the structure. Lathers are making ready for the plasterers who will be able to go to work in a very short time.

The contractors have had the best of luck and weather. There has not been a storm since the breaking of the ground that has interfered with their work. There has not been a day lots through bad weather, which is a fine showing. With a tight roof over head there will be no delays in the rest of their work as all the fine material for finishing is now stored in the basement of the building.

One feature that strikes the writer as strange is the absence of windows on the two west rooms. There is not a window on that side of the building for the two down stair rooms which certainly looks queer and also shuts out the best light that can be obtained. Take a look at it the next time you pass. The building seems to be the finest structure in the State and it is going to be the handsomest public school that the State boasts of.

Church Services.

Presbyterian—Services at 11 a. m. and 7:30 p. m. Sunday school at noon. Christian Endeavor at 6:30 p. m. Come and bring your friends.

Episcopal—Sunday school at 10 a. m. Morning prayer and sermon at 11 a. m. Evening prayer and sermon at 7:30 p. m. Rev. Samuel Unsworth of Trinity Church, Reno, will preach at both services. Public cordially invited.

Will Appear Again.

Cyrus Brownlee Newton, who pleased such a large audience in this city several weeks ago, will entertain the Carsonites Thursday evening, November 16th. The entertainment will take place under the auspices of the Woodmen of the World, Ormsby Camp, No. 413. At the conclusion of the program there will be a social dance all for one price of admission, 25 and 50 cents.

Pronounce it a Fine Show.

The Bulletin states in a recent issue that "The Washington Society Girls," which will appear in the Carson City opera house Tuesday evening, is the best burlesque show that has hit San Francisco this season.

Just received at Meyers Merc. Co. a car of choice Oregon Apples, choice varieties.

ADVANCE IN OPHIR EXPLAINED.

Eight-Foot Body of Ore Developed on 2200 Level of Mine.

Reference to Superintendent McKinley's official weekly letter explains the sudden sharp advance in Ophir shares last Saturday.

The letter states that eight feet of second grade ore is showing in the west crosscut from the south drift on the 2200 level.

This is the first instance in the history of the mine that ore has been found at that depth and its importance cannot be overestimated as it shows that the body developed on the 2100 continues downward to unknown depths and further exploratory work in the vicinity is likely to result in a marked improvement in value. The present value of the ore in the crosscut is milling grade and may be found to extend southward into Con Virginia ground, where no ore has heretofore been found at that depth in the latter mine.—Chronicle.

"Washington Society Girls."

The management of the "Washington Society Girls," who are to appear at the Opera House, November 14, 1905, next week, furnishes the following receipt to persons suffering from that saddest of all ailments—the incapacity to laugh. Get a fresh burlesque simmer it down with an army of pretty girls in dazzling costumes, seasoned with a few spicy and saucy soubrettes—stir well together—add one quartette, one acrobatic team, three or better yet four funny comedians, flavor liberally with catchy music and topical songs, topped off with a carload of gorgeous scenery and novel specialists and you will have a show as hot and as soothing as a dish of Mexican Chili Con Carne.

Salted Samples.

Kansas City stockholders of the Goldfield Crayton mining company whose property is located near Diamondfield, received samples of ore assaying from \$900 to \$15,000 but when a committee of stockholders went to the mine they could only get assays going from \$1.40 to \$3.16 per ton.

New Lodge for Reno.

It is rumored that a new lodge or Odd Fellows will be instituted in Reno in the near future, and that the instigators of the movement are going to erect a \$100,000 temple.

Certificates Granted.

RENO, November 11.—The semi-annual meeting of the Nevada State Board of Pharmacy was held at the Riverside hotel, Reno, yesterday. Permanent certificates were granted to the following: Norman A. Kuhn, Herbert Spencer Anthony, Robert McLeod, J. H. Kane, Alice M. Desponds Charles E. Bixler Fred W. Pollock, Albert C. Walter Lester W. C. Sherrad and L. E. Beeson.

IN FROM MASONIC.

Returning Carsonites Report the New Section All Right.

A number of Carsonites are interested in Masonic, the new district in Mono county, and those who have been on the ground are convinced that the finds are of merit and that the camp will be a big one.

John Wood, John Fothergill, and Jas. Howard, who have just returned from the diggings bring in most flattering reports of the conditions out that way. They all have claims in the district and as the assays are made their stock goes up.

Mr. Fothergill, who has been in Alaska, Goldfield and other boom camps put in a week or more on the ground and his opinion of the new section is that it will be one of the biggest camps in the west. The surface showings, he declares are rich and all that is needed is depth to prove the permanency of the camp.

He brought in a number of samples that are attracting attention. The gold in sight at the Jump Up Joe claim caught his eye and he states that the one claim is all that he needs to fix him up for life. This claim at the present time is in litigation and no work is being done.

John Wood, who has caught the mining fever, has a bad case. He predicts all kinds of things for the new Mono camp. He is interested in several claims and as soon as the assays are made he will know where he is at. At the present time he is chock full of mining quotations and is ready to expert anything from a sand bar to a keg of molasses.

John Howard, who is associated with John Geise of this city, has a couple of claims that the strike has been made on. His latest assays run over two hundred dollars to the ton and the price of the property has advanced in proportion. Mr. Howard's opinion of Masonic is way up in the air.

He has every reason to believe that the new section is a winner and that before another summer passed that the camp will be a hummer. On his claim that is shipping ore in sight and leasers have made a good offer for a chance to work there this winter. The offer has been refused as Mr. Geise will remain on the ground and, with the assistance of several miners, will put in the winter developing. They bring in some excellent rock and their hornings are certainly very flattering.

As Masonic is in a direct line with this city it all looks good and too many mines cannot be found out that way. Look out for Masonic.

Stanford Wins.

SAN FRANCISCO, Nov. 11.—The great football game between Stanford and Berkley resulted in a victory for Stanford, the score standing Stanford 12 to Berkley's 5. The game was one of the hardest fought in the history of the game in California. Both teams were in the finest of trim. Ten thousand people were on hand to witness the game. Berkley takes her defeat hard as they expected to win on account of weight.

Indians Defeated.

RENO, Nov. 11.—The Indian school team met its defeat again on the grid iron today when they met the second eleven of the University. After a lively scrimmage the University boys rushed the red men to the side lines and the game was in the hands of the whites. The score stood at the finish, 25 to 0.

Will Undergo an Operation.

Oliver Brule, accompanied by his mother, has gone to the Lane hospital in San Francisco for the purpose of having an operation performed. He had both legs broken about a year ago and the bones failed to knit properly, leaving him a cripple. An operation will be performed in the hospital which will doubtless restore to him the full use of his injured limbs.

Among the Southern Pacific engines running west of Sparks only four now burn coal. The rest are oil burners.

The Meyers Mercantile Company has just received a consignment of Macomber's new apple cider. It's

The Reno Journal says Colonel Hopkins, the millionaire miner of Searchlight, will be an aspirant for U. S. Senator at the next election.

Madame Ida Seminario, who is rather a prominent figure in Reno society, has brought suit for divorce from Isaac S. Seminario on the grounds of desertion.

The ladies of St. Peters Guild will have their annual sale at Guild Hall on Wednesday Nov. 29th.
